

USER INTERFACE AND DESIGN

EXPERIMENT 7

NAME:YUVAN S

ROLL NO:240701614

Design an application layout using different colours, text styles, and visual elements. Share the design with users through a Google Form or any other feedback collection method to gather their responses. Based on the feedback received, refine and improve the design accordingly.

GREEN FITNESS APP:

OBJECTIVE

The objective of the **Green Fitness Studio** application is to help users maintain a healthy lifestyle by providing a simple and user-friendly platform for tracking fitness activities.

The application focuses on:

- Providing an easy way to explore fitness activities
- Helping users follow workout routines (warm-up and exercise)
- Tracking user progress such as steps and calories
- Ensuring a clean, simple, and visually appealing interface

The goal is to make fitness tracking **easy, understandable, and accessible** for all users.

APPLICATION OVERVIEW

The **Green Fitness Studio** is a basic fitness tracking application designed with multiple screens to guide users through their fitness journey.

The application includes the following main pages:

1. Login Page

Layout: Centered design with title, image, and buttons arranged vertically.

Colour: Light blue background with darker blue buttons. **Symbols:** Fitness image and simple buttons.

2. Home Page

Layout: Title at top, search bar below, images arranged vertically.

Colour: Consistent light blue theme with highlighted search bar. **Symbols:** Search icon, menu icon, notification icon.

3. Workout Page

Layout: List of workouts with time on right, image below, bottom navigation.

Colour: Blue shades for options with light background.

Symbols: Checkmark, clock icon, plus icon, navigation icons.

4. Summary Page (Graph)

Layout: Title on top, graph in center, navigation at bottom.

Colour: Blue-green gradient in graph with light background. **Symbols:** Chart/graph and navigation icons.

5. Steps & Calories Page

Layout: Steps at top, calories below, bottom navigation.

Colour: Light blue background with dark step circle.

Symbols: Walking icon, circular progress, flame icon.

FEEDBACK FORM LINK:

FEEDBACK ANALYSIS:

Feedback was collected from users using Google Forms. Most users liked the design, but some found parts like login options and icons confusing. Users also suggested adding more features in the Workout and Summary pages.

ENHANCEMENTS MADE:

Based on feedback, the login page was simplified, better icons were added, and more details were included in Workout and Summary pages. The layout was also improved to make the app clearer and easier to use.

CONCLUSION:

This experiment shows that user feedback helps improve design. After changes, the app became more user-friendly, clear, and visually better.

IMPLEMENTATION OF FEEDBACK

Based on the feedback collected from users, necessary changes were made to improve the design and usability of the application.

Home Page (Updated):

The Home page was improved by adding short descriptions for each exercise. This helps users clearly understand what each activity is about. The layout was also adjusted with better spacing and alignment, making the page more organized and visually appealing.

These changes improved clarity and user understanding.

Summary Page (Updated):

The Summary page was enhanced by replacing unclear icons with more familiar and easy-to-understand icons. Additional information such as steps, calories, and progress details were made clearer. The graph design was also improved for better readability.

These changes made the page more informative and user-friendly.

RESULT:

After applying these changes, the updated pages became easier to understand, more visually clear, and improved the overall user experien
